

## **GCSE Results 2018 (90 students)**

This summer 48% of our actual cohort of students achieved grade 4 or above in English and maths. The school's attainment 8 figure also rose significantly. This year English results have risen to 64% achieving a grade 4 and above with 53% achieving grade 4 and above in maths. There were some terrific individual results with an increase in the number of students being awarded the top grade 9. 85% of the further maths option group achieved an A\*-C grade with two students achieving the top grade. In triple science 83% of students achieved a grade 9-4.

We were pleased with the performance of our core subjects. We saw further improvements in a number of subjects, Spanish, French, geography, drama, catering and RE.

Many congratulations to all our students; we are delighted for all those students who have worked so hard to achieve the results they need to embark upon the next stage of their education.
