

Pittville School

GCC COVID-19 RISK ASSESSMENT PROCESS (FROM STEP 4)

This is an update of the COVID-19 Risk Assessment from Step 4 of the Government Roadmap from 16th August 2021*. The aim of the risk assessment is to implement protective measures in the government's operational guidance to protect our staff, students and community.

This update has moved away from the Assess – Plan – Do – Review model previously used into a more traditional risk assessment format that identifies each hazard, who is at risk, guidance on what you should be doing and any further actions that are required.

Some people at work may have particular characteristics meaning they are at comparatively increased risk from COVID-19 (due to age, deprivation, ethnicity, pregnancy, etc.) and as employer the school must consider them in their risk assessment.

COVID-19 Risk Assessment for Pittville School

Risk Assessment for <u>Pittville School</u>							
Hazards	Who is at risk?	What are you already doing?	Is enough to manage the risks?	What further action is necessary?	Action by whom?	Action by when?	Done
Person showing symptoms or positive test result	Employees Students Young People Families Contractors Visitors Members of the public	<ul style="list-style-type: none"> • Refer to GCC COVID Response Checklist and public health advice on testing, self-isolation and managing confirmed cases of COVID-19. • Regular communications that persons are not to come into school if they have symptoms, have had a positive test result or other reasons requiring them to stay at home due to the risk of them passing on COVID-19 (e.g. they are required to quarantine). • If anyone in your school develops COVID-19 symptoms they will be sent home. • An unwell child awaiting collection will be isolated in a suitable room with or without adult supervision (depending on age and needs of the child). • Staff caring for a child awaiting collection to keep a distance of 2 metres. • PPE to be worn by staff caring for the child, including: <ul style="list-style-type: none"> ○ a face mask worn if a distance of 2 metres cannot be maintained. ○ if contact is necessary, then gloves, an apron and a face mask should be worn ○ eye protection where there is a risk of fluids entering the eye, for example, from coughing, spitting or vomiting. • Staff to wash their hands after caring for a child with symptoms. • All areas where a person with symptoms has been to be cleaned after they have left. 	Y	<p>Promote the availability and distribute kits for the use of home testing by students and staff (secondaries)</p> <p>If advised reintroduce an asymptomatic testing site (ATS) at school.</p> <p>Consult with the local PHE team to discuss what support secondary schools need to do this.</p> <p>Consider reintroducing face coverings</p>	Business Manager Business Manager Headteacher Headteacher	3 week cycle	Done

		<ul style="list-style-type: none"> Follow threshold guidance in school outbreak management plan for reporting and managing an outbreak. School has sufficient supplies of PPE, face coverings, cleaning materials and hand washing/sanitising liquids. Update staff, students, stakeholders and visitors on changes in practice – covid safe measures. If a parent/carer insists on a student attending your school with symptoms, Headteacher may refuse the student if, in their reasonable judgement, it is necessary to protect other students and staff from possible infection with COVID-19. 		and bubbles temporarily Attendance restriction will only be recommended by the government as a last resort.	Headteacher		
Poor Personal Hygiene	Employees Students Young People Families Contractors Visitors Members of the public	<ul style="list-style-type: none"> COVID-19 posters/ signage displayed. Frequent and thorough hand cleaning is regular practice. Students and staff to clean their hands when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Sufficient handwashing facilities are available. Where there is no sink, hand sanitiser provided in classrooms. Skin friendly skin cleaning wipes used as an alternative to hand washing or sanitiser. Staff help is available for students who have trouble cleaning their hands independently (e.g. small children and students with complex needs). Adults and students are encouraged not to touch their mouth, eyes and nose. Adults and students encouraged to use a tissue to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it'). Tissues to be provided. Bins for tissues provided and are emptied throughout the day. 	Y	Put in place monitoring and supervision to make sure people are following any controls you have in place, including enhanced cleaning. with surfaces, equipment and workstations	Students Young People Families Contractors Visitors Members of the public	<ul style="list-style-type: none"> • Cleaning using standard cleaning products such as detergents and bleach, paying attention to all surfaces but especially ones that are touched frequently, such as door handles, light switches, work surfaces, remote controls and electronic devices. • Surfaces that are frequently touched and by many people in common areas to be cleaned twice a day. • Avoid sharing work equipment by allocating it on a personal basis or put cleaning regimes in place to clean between each user. • Identify where you can reduce people touching surfaces, for example by leaving doors open (except fire doors), or providing contactless payment. • Keep surfaces clear to make it easier to clean and reduce the likelihood of contaminating objects. • Provide more bins and empty them more often. • Toilets and communal areas to be cleaned regularly. • Sanitising spray and paper towels to be provided in classrooms for use by members of staff. • Thorough cleaning of rooms at the end of the day. 		make sure people are following controls, for example by implementing cleaning regimes.	Site Manager	Daily	Done			
				Provide information telling people who should clean something and when.				Site Manager	Daily	Done
				Provide instruction and training to people who need to clean.						
Include information on the products they need to use, precautions they need to follow and the areas they need to clean										
Poorly ventilated spaces leading to risks of	Employees Students Young People Families	<ul style="list-style-type: none"> • Ventilation and AC systems working optimally. • Carbon dioxide monitors used to quickly identify where ventilation needs to be improved. • Heating used as necessary to ensure comfort levels are maintained when the building is occupied. 	Y	Identify any poorly ventilated spaces take steps to	Site Manager	Ongoing				

coronavirus spreading	Contractors Visitors Members of the public	<ul style="list-style-type: none"> • Keep windows open wide enough to provide some natural background ventilation and open internal doors to increase air flow. • Open windows fully when rooms are unoccupied for longer periods to purge the air (e.g. lunch times and before and after school). • Action taken to prevent occupants being exposed to draughts. For example, partially open high-level windows as oppose to low-level windows, close external doors and arrange the furniture if appropriate and possible. • Use fans for good air circulation. • Air conditioning systems that normally run with a recirculation mode set up to run on full outside air. • Ventilations system that removes and recirculates air to different rooms is turned off. • Ventilation system remains on at all times, even when the building is unoccupied. The system set to operate at lower ventilation rates during evenings and weekends. • Occupants encouraged to wear additional, suitable indoor clothing. (If they have to wear coats, scarves and other outdoor clothing the room would be considered too cold and the above steps must be considered). • Ensure staff meetings and insets are in rooms with suitable and sufficient ventilation. 		improve fresh air flow in these areas. Maintain air conditioning plant and equipment as per manufacturers instructions.	Site Manager	Annual Services	Done
Increased risk of infection and complications for workers who are clinically extremely vulnerable and workers	Employees Students Young People Families Contractors Visitors Members of the public	<ul style="list-style-type: none"> • Identify who in the work force could be clinically extremely vulnerable and refer to government guidance and HSE and PHE guidance on protecting vulnerable workers during the pandemic on how to support workers in higher-risk groups and those who are clinically extremely vulnerable. • Carry out a risk assessment of pregnant workers to identify the risk and measures to be taken. • Some pregnant workers will be at greater risk of severe illness from coronavirus and they should stay 	Y	Guidance on who is clinically extremely vulnerable and what further support may be available from Public Health England.	Business Manager	Aware of current staff. Ongoing throughout recruitment process.	

in higher- risk groups		<p>at home as much as possible and work from home if they can.</p> <ul style="list-style-type: none"> Where adjustments to the job or working from home is not possible pregnant workers will be suspended from work on paid leave. 		Keep under review completed individual risk assessments for pregnant workers.	Business Manager	Completed each trimester for each individual.	
Airborne spread of COVID	<p>Employees Students Young People Families Contractors Visitors Members of the public</p>	<ul style="list-style-type: none"> Although from Step 4, face coverings will no longer be advised for students, staff and visitors, persons choosing to wear face coverings as a precaution will not be deterred when outside the classroom. Where staff are in enclosed and crowded spaces, face masks are recommended (but not required). Face coverings recommended on school transport. 	Y	If recommended, students, staff and visitors (unless exempt) will be directed to temporarily wear face coverings in school for two weeks in the first instance, pending regular review:	Headteacher		
Returning to work after summer closure	<p>Employees Students Young People Families Contractors Visitors Members of the public</p>	<ul style="list-style-type: none"> Buildings and health and safety compliance checks continue to be undertaken (e.g. fire alarm, emergency lighting, water hygiene, lifts, etc.). Checking mechanical ventilation systems are working effectively and are properly maintained. Decide the tasks that need to be carried out as a priority. This will allow you to plan the order in which workers will return to your workplace and in what number. 		Encourage vaccination			

		<ul style="list-style-type: none"> • Information and instruction for returning workers to ensure clarity on arrangements for cleaning and hygiene and ventilation. • Vaccination is a control measure against COVID so staff can be asked to confirm that they are vaccinated. This information will assist in the risk assessment for outbreak management plans. • Communicate updates with supply staff and other temporary or peripatetic staff and volunteers to follow the school's arrangements for managing and minimising risk. • All secondary school students should receive 2 on-site lateral flow device tests, 3 to 5 days apart, on their return in the autumn term. • Staff to undertake twice weekly home tests whenever they are on site until at least the end of September. • Secondary schools to retain a small asymptomatic testing site (ATS) on-site to offer testing to students who are unable to test themselves at home. • Review/update policies to reflect changes brought about by updated COVID-19 requirements. • Ensure website is compliant with regards to the publishing of policies and risk assessment. 		take up amongst eligible staff
