Assessments in each of these subjects will take a variety of forms including retrieval multiple choice quizzes, short and/or extended answer questions, design tasks and exam style questions.

Subjects taught on rotation (DT, Food & Nutrition, IT and music) will complete assessments at the end of each rotation and stand outside of the calendared assessment windows for other subjects.

Other subjects with a high percentage of Non-Examined Assessment (PE, drama, art and textiles), will complete on-going practical assessments to enable staff to report on progress against age related expectations in that subject area. These will fall outside of the calendared assessment window and will not require specific preparation.
